# ANTONIO VILA

## BACKEND DEVELOPER

### PROFILE

I am a web developer passionate about the backend, with knowledge in building all kinds of projects with more than 3 years of experience in the industry.

### WORK EXPERIENCE

#### GESTOY

Django - Django REST framework - PostgreSQL - MongoDB - HTML5 - CSS - JavaScript

08/2022 - 11/2023

##### Worked on:

- I led the development of SportYeah's chat backend, which included direct messaging, group messaging, video calling and real-time functionality through the implementation of sockets.
- Led the development of the content recommendation system.
- Implemented extensive unit testing
- Developed the social network story module, which allowed users to share temporary content.
- Collaborated in the development of the main publishing module of the social network.
- Worked closely with the QA team to perform integration testing

#### BlackHost

Django REST framework - PostgreSQL - HTML5 - CSS - JavaScript

06/2022 - 08/2022

##### Worked on:

- Development of modules and microservices for different projects in django, medical and remote work platform.
- Massive data loading through csv,pdf,xls files.
- Complete monolithic projects, sport pages, and ecommerce.
- Database adaptation
- Deployment
